

## Safety Data Sheet

According to Annex II to REACH - Regulation (EU) 2020/878

### SECTION 1. Identification of the substance/mixture and of the company/undertaking

#### 1.1. Product identifier

Code: **P0010**  
Product name: **ISOLANTE LG**

#### 1.2. Relevant identified uses of the substance or mixture and uses advised against

Intended use: **Membership promoter**

#### 1.3. Details of the supplier of the safety data sheet

Name: **Licata S.p.A.**  
Full address: **Via dei Mille 32**  
District and Country: **00185 Roma (RM) Italia**  
Tel.: **+39 0922 856088**  
Fax: **+39 0922 831427**

e-mail address of the competent person responsible for the Safety Data Sheet: **controllo-qualita@licataspa.it**

#### 1.4. Emergency telephone number

For urgent inquiries refer to:  
**NHS111in England: 111**  
**NHS24in Scotland: 111**  
**NHS Direct in Wales: 111 or 0845 4647**  
**In an emergency, if the patient has collapsed or is not breathing properly, call 999**

### SECTION 2. Hazards identification

#### 2.1. Classification of the substance or mixture

The product is not classified as hazardous pursuant to the provisions set forth in EC Regulation 1272/2008 (CLP). However, since the product contains hazardous substances in concentrations such as to be declared in section no. 3, it requires a safety data sheet with appropriate information, compliant to (EU) Regulation 2020/878.

Hazard classification and indication: --

#### 2.2. Label elements

Hazard labelling pursuant to EC Regulation 1272/2008 (CLP) and subsequent amendments and supplements.

Hazard pictograms: --

Signal words: --

Hazard statements:  
**EUH210** Safety data sheet available on request.  
**EUH208** Contains: REACTION MASS OF 5-CHLORO-2- METHYL-2H-ISOTHIAZOL-3-ONE AND 2-METHYL-2H-ISOTHIAZOL-3-ONE (3:1)  
May produce an allergic reaction.

Precautionary statements: --

#### 2.3. Other hazards

On the basis of available data, the product does not contain any PBT or vPvB in percentage  $\geq$  than 0,1%.

| REACH Reg.  | 01-2120764691-48 |  |  |    |
| The full wording of hazard (H) phrases is given in section 16 of the sheet.   |                  |  |  |    |
| SECTION 4. First aid measures   |                  |  |  |    |
| 4.1. Description of first aid measures  |                  |  |  |    |
| No effects requiring implementation of special first aid measures are expected. The following information represents practical indications of correct behaviour in the event of contact with a chemical product, even if not hazardous.<br>In case of doubt or in the presence of symptoms contact a doctor and show him this document.<br>In case of more severe symptoms, ask for immediate medical aid.<br>EYES: Remove, if present, contact lenses if the situation allows you to do so easily. Wash immediately with plenty of water for at least 15 minutes, opening the eyelids fully. Get medical advice/attention.<br>SKIN: Take off contaminated clothing. Wash immediately and thoroughly with running water (and soap if possible). Get medical advice. Avoid further contact with contaminated clothing.<br>INGESTION: Do not induce vomiting unless explicitly authorised by a doctor. Do not give anything by mouth to an unconscious person. Get medical advice/attention.<br>INHALATION: Remove victim to fresh air, away from the accident scene. Get medical advice/attention. |                  |  |  |    |
| Rescuer protection  |                  |  |  |    |
| It is good practice for rescuers lending support to a person who has been exposed to a chemical substance or to a mixture to wear personal protective equipment. The nature of such protection depends on the hazard level of the substance or mixture, on the type of exposure and on the extent of the contamination. In the absence of other more specific indications, use of disposable gloves in the event of possible contact with body fluids is recommended. For the type of PPE suitable for the characteristics of the substance or mixture, see section 8.  |                  |  |  |    |
| 4.2. Most important symptoms and effects, both acute and delayed  |                  |  |  |    |
| Specific information on symptoms and effects caused by the product are unknown.<br><br>DELAYED EFFECTS: Based on the information currently available, there are no known cases of delayed effects following exposure to this product.   |                  |  |  |    |
| 4.3. Indication of any immediate medical attention and special treatment needed   |                  |  |  |    |
| If symptoms occur, whether acute or delayed, consult a doctor.<br><br>Means to have available in the workplace for specific and immediate treatment   |                  |  |  |    |
| Running water for skin and eye wash.  |                  |  |  |    |
| SECTION 5. Firefighting measures  |                  |  |  |    |

| <div>Choose the most appropriate extinguishing equipment for the specific case.</div> <div>UNSUITABLE EXTINGUISHING EQUIPMENT</div> <div>None in particular.</div>   |             |  |  |     |             |  |
| 5.2. Special hazards arising from the substance or mixture   |             |  |  |     |             |  |
| <div>HAZARDS CAUSED BY EXPOSURE IN THE EVENT OF FIRE</div> <div>The product is neither flammable nor combustible.</div>  |             |  |  |     |             |  |
| 5.3. Advice for firefighters   |             |  |  |     |             |  |
| <div>SPECIAL PROTECTIVE EQUIPMENT FOR FIRE-FIGHTERS</div> <div>Normal fire fighting clothing i.e. fire kit (BS EN 469), gloves (BS EN 659) and boots (HO specification A29 and A30) in combination with self-contained open circuit positive pressure compressed air breathing apparatus (BS EN 137).</div>  |             |  |  |     |             |  |
| SECTION 6. Accidental release measures   |             |  |  |     |             |  |
| 6.1. Personal precautions, protective equipment and emergency procedures   |             |  |  |     |             |  |
| <div>Block the leakage if there is no hazard.</div> <div>Wear suitable protective equipment (including personal protective equipment referred to under Section 8 of the safety data sheet) to prevent any contamination of skin, eyes and personal clothing. These indications apply for both processing staff and those involved in emergency procedures.</div> |             |  |  |     |             |  |
| 6.2. Environmental precautions   |             |  |  |     |             |  |
| <div>The product must not penetrate into the sewer system or come into contact with surface water or ground water.</div>   |             |  |  |     |             |  |
| 6.3. Methods and material for containment and cleaning up  |             |  |  |     |             |  |
| <div>Collect the leaked product into a suitable container. Evaluate the compatibility of the container to be used, by checking section 10. Absorb the remainder with inert absorbent material.</div> <div>Make sure the leakage site is well aired. Contaminated material should be disposed of in compliance with the provisions set forth in point 13.</div>   |             |  |  |     |             |  |
| 6.4. Reference to other sections   |             |  |  |     |             |  |
| <div>Any information on personal protection and disposal is given in sections 8 and 13.</div>  |             |  |  |     |             |  |
| SECTION 7. Handling and storage  |             |  |  |     |             |  |
| 7.1. Precautions for safe handling   |             |  |  |     |             |  |
| <div>Before handling the product, consult all the other sections of this material safety data sheet. Avoid leakage of the product into the environment. Do not eat, drink or smoke during use. Remove any contaminated clothes and personal protective equipment before entering places in which people eat.</div>   |             |  |  |     |             |  |
| 7.2. Conditions for safe storage, including any incompatibilities  |             |  |  |     |             |  |
| <div>Store only in the original container. Store the containers sealed, in a well ventilated place, away from direct sunlight. Keep containers away from any incompatible materials, see section 10 for details.</div>   |             |  |  |     |             |  |
| 7.3. Specific end use(s)   |             |  |  |     |             |  |
| <div>Information not available</div>   |             |  |  |     |             |  |
| SECTION 8. Exposure controls/personal protection   |             |  |  |     |             |  |
| 8.1. Control parameters  |             |  |  |     |             |  |

| VOC (Directive 2010/75/EU)  |  |  | 0,04 % - 0,56  |  | g/litre   |    |
| SECTION 10. Stability and reactivity  |  |  |  |  |   |    |
| 10.1. Reactivity  |  |  |  |  |   |    |
| There are no particular risks of reaction with other substances in normal conditions of use.      |  |  |  |  |   |    |
| CALCIUM CARBONATE   |  |  |  |  |   |    |
| Decomposes at temperatures above 800°C/1472°F.  |  |  |  |  |   |    |
| 10.2. Chemical stability  |  |  |  |  |   |    |
| The product is stable in normal conditions of use and storage.                                    |  |  |  |  |   |    |
| 10.3. Possibility of hazardous reactions  |  |  |  |  |   |    |
| No hazardous reactions are foreseeable in normal conditions of use and storage.                   |  |  |  |  |   |    |
| 10.4. Conditions to avoid   |  |  |  |  |   |    |
| None in particular. However the usual precautions used for chemical products should be respected. |  |  |  |  |   |    |
| 10.5. Incompatible materials  |  |  |  |  |   |    |
| CALCIUM CARBONATE   |  |  |  |  |   |    |
| Incompatible with: acids.   |  |  |  |  |   |    |
| 10.6. Hazardous decomposition products  |  |  |  |  |   |    |
| CALCIUM CARBONATE   |  |  |  |  |   |    |
| May develop: calcium oxides,carbon oxides.  |  |  |  |  |   |    |
| EPY 11.9.0 - SDS 1004.14  |  |  |  |  |   |    |

## SECTION 11. Toxicological information

In the absence of experimental data for the product itself, health hazards are evaluated according to the properties of the substances it contains, using the criteria specified in the applicable regulation for classification.  
It is therefore necessary to take into account the concentration of the individual hazardous substances indicated in section 3, to evaluate the toxicological effects of exposure to the product.

### 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

#### Metabolism, toxicokinetics, mechanism of action and other information

Information not available

#### Information on likely routes of exposure

Information not available

#### Delayed and immediate effects as well as chronic effects from short and long-term exposure

Information not available

#### Interactive effects

Information not available

#### ACUTE TOXICITY

|               |   |
|---------------|---|
| <b>H315</b>   | Causes skin irritation.                               |
| <b>H317</b>   | May cause an allergic skin reaction.                  |
| <b>H400</b>   | Very toxic to aquatic life.                           |
| <b>H410</b>   | Very toxic to aquatic life with long lasting effects. |
| <b>EUH071</b> | Corrosive to the respiratory tract.                   |
| <b>EUH210</b> | Safety data sheet available on request.               |

#### LEGEND:

- ADR: European Agreement concerning the carriage of Dangerous goods by Road
- ATE: Acute Toxicity Estimate
- CAS: Chemical Abstract Service Number
- CE50: Effective concentration (required to induce a 50% effect)
- CE: Identifier in ESIS (European archive of existing substances)
- CLP: Regulation (EC) 1272/2008
- DNEL: Derived No Effect Level
- EmS: Emergency Schedule
- GHS: Globally Harmonized System of classification and labeling of chemicals
- IATA DGR: International Air Transport Association Dangerous Goods Regulation
- IC50: Immobilization Concentration 50%
- IMDG: International Maritime Code for dangerous goods
- IMO: International Maritime Organization
- INDEX: Identifier in Annex VI of CLP
- LC50: Lethal Concentration 50%
- LD50: Lethal dose 50%
- OEL: Occupational Exposure Level
- PBT: Persistent, bioaccumulative and toxic
- PEC: Predicted environmental Concentration
- PEL: Predicted exposure level
- PMT: Persistent, mobile and toxic
- PNEC: Predicted no effect concentration
- REACH: Regulation (EC) 1907/2006
- RID: Regulation concerning the international transport of dangerous goods by train
- TLV: Threshold Limit Value
- TLV CEILING: Concentration that should not be exceeded during any time of occupational exposure.
- TWA: Time-weighted average exposure limit
- TWA STEL: Short-term exposure limit
- VOC: Volatile organic Compounds
- vPvB: Very persistent and very bioaccumulative
- vPvM: Very persistent and very mobile
- WGK: Water hazard classes (German).

Note for users:

The information contained in the present sheet are based on our own knowledge on the date of the last version. Users must verify the suitability and thoroughness of provided information according to each specific use of the product.

This document must not be regarded as a guarantee on any specific product property.

The use of this product is not subject to our direct control; therefore, users must, under their own responsibility, comply with the current health and safety laws and regulations. The producer is relieved from any liability arising from improper uses.

Provide appointed staff with adequate training on how to use chemical products.

#### CALCULATION METHODS FOR CLASSIFICATION

Chemical and physical hazards: Product classification derives from criteria established by the CLP Regulation, Annex I, Part 2. The data for evaluation of chemical-physical properties are reported in section 9.

Health hazards: Product classification is based on calculation methods as per Annex I of CLP, Part 3, unless determined otherwise in Section 11.

Environmental hazards: Product classification is based on calculation methods as per Annex I of CLP, Part 4, unless determined otherwise in Section 12.
