

Safety Data Sheet

According to Annex II to REACH - Regulation (EU) 2020/878

SECTION 1. Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Code: **P0048**
Product name: **TIPO L NEUTRO**

1.2. Relevant identified uses of the substance or mixture and uses advised against

Intended use: **Idropittura**

1.3. Details of the supplier of the safety data sheet

Name: **Licata S.p.A.**
Full address: **Via dei Mille 32**
District and Country: **00185 Roma (RM) Italia**
Tel.: **+39 0922 856088**
Fax: **+39 0922 831427**

e-mail address of the competent person responsible for the Safety Data Sheet: **controllo-qualita@licataspa.it**

1.4. Emergency telephone number

For urgent inquiries refer to:
NHS111in England: 111
NHS24in Scotland: 111
NHS Direct in Wales: 111 or 0845 4647
In an emergency, if the patient has collapsed or is not breathing properly, call 999

SECTION 2. Hazards identification

2.1. Classification of the substance or mixture

The product is not classified as hazardous pursuant to the provisions set forth in EC Regulation 1272/2008 (CLP). However, since the product contains hazardous substances in concentrations such as to be declared in section no. 3, it requires a safety data sheet with appropriate information, compliant to (EU) Regulation 2020/878.

Hazard classification and indication: --

2.2. Label elements

Hazard labelling pursuant to EC Regulation 1272/2008 (CLP) and subsequent amendments and supplements.

Hazard pictograms: --

Signal words: --

Hazard statements:
EUH210 Safety data sheet available on request.
EUH208 Contains: REACTION MASS OF 5-CHLORO-2- METHYL-2H-ISOTHIAZOL-3-ONE AND 2-METHYL-2H-ISOTHIAZOL-3-ONE (3:1)
May produce an allergic reaction.

Precautionary statements: --

2.3. Other hazards

On the basis of available data, the product does not contain any PBT or vPvB in percentage \geq than 0,1%.

Licata S.p.A.		Revision nr.4 Dated 13/06/2025 Printed on 13/06/2025 Page n. 2 / 11 Replaced revision:3 (Dated 09/09/2024)		EN
P0048 - TIPO L NEUTRO				
The product does not contain substances with endocrine disrupting properties in concentration ≥ 0.1%.				
SECTION 3. Composition/information on ingredients				
3.2. Mixtures				
Contains:				
Identification		x = Conc. %	Classification (EC) 1272/2008 (CLP)	
REACTION MASS OF 5-CHLORO-2- METHYL-2H-ISOTHIAZOL-3-ONE AND 2-METHYL-2H-ISOTHIAZOL-3-ONE (3:1)				
INDEX	613-167-00-5	0 < x < 0,0015	Acute Tox. 2 H310, Acute Tox. 2 H330, Acute Tox. 3 H301, Skin Corr. 1C H314, Eye Dam. 1 H318, Skin Sens. 1A H317, Aquatic Acute 1 H400 M=100, Aquatic Chronic 1 H410 M=100, EUH071, Classification note according to Annex VI to the CLP Regulation: B	
EC	611-341-5		Skin Corr. 1C H314: ≥ 0,6%, Skin Irrit. 2 H315: ≥ 0,06% - < 0,6%, Skin Sens. 1A H317: ≥ 0,0015%, Eye Dam. 1 H318: ≥ 0,6%, Eye Irrit. 2 H319: ≥ 0,06% - < 0,6%	
CAS	55965-84-9		LD50 Oral: 64 mg/kg, LD50 Dermal: 87,12 mg/kg, LC50 Inhalation mists/powders: 0,33 mg/l/4h	
REACH Reg.	01-2120764691-48			
The full wording of hazard (H) phrases is given in section 16 of the sheet.				
SECTION 4. First aid measures				
4.1. Description of first aid measures				
No effects requiring implementation of special first aid measures are expected. The following information represents practical indications of correct behaviour in the event of contact with a chemical product, even if not hazardous. In case of doubt or in the presence of symptoms contact a doctor and show him this document. In case of more severe symptoms, ask for immediate medical aid. EYES: Remove, if present, contact lenses if the situation allows you to do so easily. Wash immediately with plenty of water for at least 15 minutes, opening the eyelids fully. Get medical advice/attention. SKIN: Take off contaminated clothing. Wash immediately and thoroughly with running water (and soap if possible). Get medical advice. Avoid further contact with contaminated clothing. INGESTION: Do not induce vomiting unless explicitly authorised by a doctor. Do not give anything by mouth to an unconscious person. Get medical advice/attention. INHALATION: Remove victim to fresh air, away from the accident scene. Get medical advice/attention.				
Rescuer protection				
It is good practice for rescuers lending support to a person who has been exposed to a chemical substance or to a mixture to wear personal protective equipment. The nature of such protection depends on the hazard level of the substance or mixture, on the type of exposure and on the extent of the contamination. In the absence of other more specific indications, use of disposable gloves in the event of possible contact with body fluids is recommended. For the type of PPE suitable for the characteristics of the substance or mixture, see section 8.				
4.2. Most important symptoms and effects, both acute and delayed				
Specific information on symptoms and effects caused by the product are unknown.				
DELAYED EFFECTS: Based on the information currently available, there are no known cases of delayed effects following exposure to this product.				
4.3. Indication of any immediate medical attention and special treatment needed				
If symptoms occur, whether acute or delayed, consult a doctor.				
Means to have available in the workplace for specific and immediate treatment				
Running water for skin and eye wash.				
SECTION 5. Firefighting measures				
5.1. Extinguishing media				
SUITABLE EXTINGUISHING EQUIPMENT				
EPY 11.9.0 - SDS 1004.14				

<div>Licata S.p.A.</div> <div>P0048 - TIPO L NEUTRO</div>		<div>Revision nr.4</div> <div>Dated 13/06/2025</div> <div>Printed on 13/06/2025</div> <div>Page n. 3 / 11</div> <div>Replaced revision:3 (Dated 09/09/2024)</div>	EN
SECTION 5. Firefighting measures ... / >>			
<div>The extinguishing equipment should be of the conventional kind: carbon dioxide, foam, powder and water spray.</div> <div>UNSUITABLE EXTINGUISHING EQUIPMENT</div> <div>None in particular.</div>			
5.2. Special hazards arising from the substance or mixture			
<div>HAZARDS CAUSED BY EXPOSURE IN THE EVENT OF FIRE</div> <div>Do not breathe combustion products.</div>			
5.3. Advice for firefighters			
<div>GENERAL INFORMATION</div> <div>Use jets of water to cool the containers to prevent product decomposition and the development of substances potentially hazardous for health. Always wear full fire prevention gear. Collect extinguishing water to prevent it from draining into the sewer system. Dispose of contaminated water used for extinction and the remains of the fire according to applicable regulations.</div> <div>SPECIAL PROTECTIVE EQUIPMENT FOR FIRE-FIGHTERS</div> <div>Normal fire fighting clothing i.e. fire kit (BS EN 469), gloves (BS EN 659) and boots (HO specification A29 and A30) in combination with self-contained open circuit positive pressure compressed air breathing apparatus (BS EN 137).</div>			
SECTION 6. Accidental release measures			
6.1. Personal precautions, protective equipment and emergency procedures			
<div>Block the leakage if there is no hazard.</div> <div>Wear suitable protective equipment (including personal protective equipment referred to under Section 8 of the safety data sheet) to prevent any contamination of skin, eyes and personal clothing. These indications apply for both processing staff and those involved in emergency procedures.</div>			
6.2. Environmental precautions			
<div>The product must not penetrate into the sewer system or come into contact with surface water or ground water.</div>			
6.3. Methods and material for containment and cleaning up			
<div>Collect the leaked product into a suitable container. Evaluate the compatibility of the container to be used, by checking section 10. Absorb the remainder with inert absorbent material.</div> <div>Make sure the leakage site is well aired. Contaminated material should be disposed of in compliance with the provisions set forth in point 13.</div>			
6.4. Reference to other sections			
<div>Any information on personal protection and disposal is given in sections 8 and 13.</div>			
SECTION 7. Handling and storage			
7.1. Precautions for safe handling			
<div>Before handling the product, consult all the other sections of this material safety data sheet. Avoid leakage of the product into the environment. Do not eat, drink or smoke during use. Remove any contaminated clothes and personal protective equipment before entering places in which people eat.</div>			
7.2. Conditions for safe storage, including any incompatibilities			
<div>Store only in the original container. Store the containers sealed, in a well ventilated place, away from direct sunlight. Keep containers away from any incompatible materials, see section 10 for details.</div>			
7.3. Specific end use(s)			
<div>Information not available</div>			
<div>EPY 11.9.0 - SDS 1004.14</div>

9.2. Other information				
9.2.1. Information with regard to physical hazard classes				
Information not available				
9.2.2. Other safety characteristics				
VOC (Directive 2010/75/EU)	0,75 %			
SECTION 10. Stability and reactivity				
10.1. Reactivity				
There are no particular risks of reaction with other substances in normal conditions of use.				
10.2. Chemical stability				
The product is stable in normal conditions of use and storage.				
10.3. Possibility of hazardous reactions				
No hazardous reactions are foreseeable in normal conditions of use and storage.				
10.4. Conditions to avoid				
None in particular. However the usual precautions used for chemical products should be respected.				
10.5. Incompatible materials				
Information not available				
10.6. Hazardous decomposition products				
Information not available				
EPY 11.9.0 - SDS 1004.14

The information contained in the present sheet are based on our own knowledge on the date of the last version. Users must verify the suitability and thoroughness of provided information according to each specific use of the product.

This document must not be regarded as a guarantee on any specific product property.

The use of this product is not subject to our direct control; therefore, users must, under their own responsibility, comply with the current health and safety laws and regulations. The producer is relieved from any liability arising from improper uses.

Provide appointed staff with adequate training on how to use chemical products.

CALCULATION METHODS FOR CLASSIFICATION

Chemical and physical hazards: Product classification derives from criteria established by the CLP Regulation, Annex I, Part 2. The data for evaluation of chemical-physical properties are reported in section 9.

Health hazards: Product classification is based on calculation methods as per Annex I of CLP, Part 3, unless determined otherwise in Section 11.

Environmental hazards: Product classification is based on calculation methods as per Annex I of CLP, Part 4, unless determined otherwise in Section 12.
